

FS2 Spring Term

Planes, trains and automobiles and on the farm

We will continue to ensure that the children take the lead in their learning, allowing them to choose some of their favourite stories to talk and learn about. We will be inside and outside (especially if it snows!) and will ensure that the prime areas are at the heart of our curriculum.

Physical Development

Alongside a physically challenging outdoor area, our provision is carefully planned with physical development in mind. In PE we will use different objects to develop our gross motor skills through kicking, catching, pushing and throwing.

Literacy

We will have a new book or rhyme of the week, and will use this as a base for our exploration and continuous provision. We will provide lots of opportunities for children to experiment with writing and books.

Religious Education

In the Spring term we talk about our school, or church and our parish family. We learn about the Easter story.

Phonics

We will continue to explore new sounds each day, promoting segmenting and blending skills to read.

Communication and Language

Using smaller key worker groups we give our children many opportunities to develop their speaking and listening skills. We ensure that all children feel listened to and have a good experience of early literature.

Personal, Social and Emotional Development

We maintain close relationships with our children and families so that the children continue to thrive. We carry on promoting and supporting good behaviour choices, and encourage children to think carefully about their choices.

Mathematics

We will be recognising and counting with numbers 1-20 through addition and subtraction. We will also order objects by length/weight/height and capacity.
